

Management Report of Fund Performance

For the year ended December 31, 2022

This document contains the Annual Management Report of Fund Performance (“MRFP”) for the Family Single Student Education Savings Plan (the “Plan”).

This MRFP contains financial highlights but does not contain the complete annual financial statements of the Plan. You can obtain a copy of the annual financial statements of the Plan at your request, and at no cost, by calling us at 1-800-363-7377 or by writing to us at 50 Burnhamthorpe Road West, Suite 1000, Mississauga, Ontario, L5B4A5. Alternatively, you can visit our website at www.knowledgefirstfinancial.ca or SEDAR at www.sedar.com.

The investment policies of the Plan, as well as those contained in the Canadian Securities Administrators (“CSA”) policies, limit the Plan’s investments to government bonds, guaranteed investment certificates, guaranteed mortgages, and corporate debt instruments of financial institutions (the latter with a minimum BBB (low) credit rating at the time of acquisition), Canadian equity securities, and U.S. equities via an exchange-traded fund (ETF), both of which must be traded on a stock exchange in Canada or the U.S.

Any decision on security voting matters has been delegated to each of our portfolio managers as described in their respective Investment Management Agreements.

Management Discussion of Fund Performance

Investment Objectives and Strategies

The investment objectives of the Plan are foremost to protect the principal of the investor and maximize return over the long term in a conservative manner, in accordance with the Plan's investment policy. Pursuant to Knowledge First Financial Inc.'s ("Knowledge First Financial") Undertaking with the Ontario Securities Commission (OSC), the Plan is permitted to invest a portion of the Plan's assets (up to 40% of Net Assets) in equity securities, including exchange traded funds (ETFs) that replicate the performance of a widely quoted market index of Canadian or U.S. equity securities listed on a stock exchange in Canada or the U.S.

Currently, the Plan's fixed income assets are managed by Guardian Capital LP (Canadian Government bonds), Fiera Capital Corporation (Infrastructure bonds), and Jarislowsky, Fraser Limited (who replaced the TD Asset Management in Corporate bonds mandate). The plan's fixed income securities are actively managed through sector allocation, duration management, credit research and yield curve strategies. Canadian equities are actively managed by Connor, Clark & Lunn Investment Management, while the US equities are passively managed by BMO Asset Management Inc. via investing in BMO MSCI USA ESG Leaders Index ETF. The portfolio advisors manage the assets of the Plans on a discretionary basis within set parameters established under the prospectus and the SIPP.

Risk

The Plan is a conservative balanced investment fund suitable for investors seeking to save for a child's post-secondary education. It is particularly suited for those investors having a lower tolerance for risk. During the year ended December 31, 2022, there were no significant changes to the Plan's portfolio and overall level of risk.

Results of Operations

During the year ended December 31, 2022, net assets attributable to subscribers and beneficiaries of the Plan increased by 47.2% from \$3,756.3 million as of December 31, 2021 to \$5,527.7 million as of December 31, 2022. The increase primarily resulted from the Heritage plans merged with the Plan on March 1, 2022, offset by a decrease in net assets attributable to subscribers and beneficiaries due to negative investment experience.

Investments

Over the past five years, the Plan's annual compounded net rate of return was 2.9%. For fiscal 2022, the Plan's net rate of return was negative 12.0% versus a return of negative 12.3% for the FTSE Canada Universe All Government Bond Index. Unlike the Index, the Plan's return is net of all expenses.

The Plan's overall investment allocation didn't have significant changes over the year. At December 31, 2022, 24.2% of the assets were invested in government bonds, 37.9% in corporate bonds, and 37.9% in equities.

The post-COVID economic recovery of 2021 was followed by a turbulent 2022, which was characterized by geopolitical tensions, rising inflation, global monetary policy tightening, and significant losses in asset prices.

Continued COVID-19 lockdowns in China as well as war in Ukraine distorted global supply chains, while the demand for goods and services driven by pandemic fiscal stimulus continued to be strong. As a result, skyrocketing inflation hit most economies, breaking multi decade records in several countries.

FAMILY SINGLE STUDENT EDUCATION SAVINGS PLAN

To combat rising inflation, central banks across the globe responded with a coordinated effort of unprecedented interest rate hikes, leading to one of the most rapidly evolving changes in market environment and adversely affecting both stocks and bonds. From March to December, the Bank of Canada increased its interest rates 17-fold, from 0.25% to 4.25%, sending bond yields soaring and causing selloffs across-the-board in equities and fixed income.

For the year ended December 31, 2022, global equities (S&P Global Broad Market Index) were down 18.2%, US equities (S&P 500) lost 18.1%, and Canadian equities (TSX Composite) returned negative 5.8% helped by strong returns from the Energy sector. Canadian bonds (FTSE Canada Universe Bond Index) had their worst year on record and were down 11.7%, with Government and Corporate bonds losing 12.3% and 9.9% respectively.

As a result, traditional portfolios experienced the largest loss of diversification benefits in decades, as both equities and fixed income suffered significant losses in tandem.

The volatile market environment and downfall in asset prices strengthened the US dollar, which is considered a safe-haven currency. This, in turn, resulted in goods becoming more expensive in local prices, further adding to inflationary pressures. The Canadian dollar closed 2022 at about 0.74 USD/CAD, losing approximately 6.4% versus the U.S. dollar.

The most recent readings show that inflation has moderated in most markets; however, central banks are far from achieving their historical inflation targets. Combined with a strong labour market, monetary policy tightening may continue into 2023, but investors now expect rate increases to come at a slower pace compared to 2022.

Recent Developments

On March 1 2022, the Heritage Education Saving Plan's assets merged with the Plan.

The total assets transferred were \$2,731,147,477 as broken down below:

Management Fees

The Foundation is the sponsor of the Plan. The general management of the Plan is carried out on behalf of the Foundation by its wholly owned subsidiary, Knowledge First Financial, and includes processing and call center services related to new agreements, payments, government grants, plan modifications, terminations, maturities and EAPs. Knowledge First Financial is entitled to receive from the Plan an annual management fee of up to 0.99% plus HST on funds on deposit related to the Plan. For the year ended December 31, 2022, management fees charged to the Plan were \$52.6 million or 0.89% (0.79% increased to 0.99% on July 1, 2022), inclusive of HST (December 31, 2021 - \$31.9 million or 0.79%).

Knowledge First Financial Plans, which include the Plan, may be connected issuers. A connected issuer includes an issuer distributing securities that has a relationship with a securities dealer or certain parties related to that dealer, which may lead a reasonable prospective investor to question if the dealer and the issuer are independent of each other.

Independent Review Committee Fees

The Independent Review Committee reviews all conflict-of-interest matters referred to it by the Foundation. For the year ended December 31, 2022, the Plan paid the Independent Review Committee, a committee mandated by legislation, fees of \$86 thousand (December 31, 2021 - \$52 thousand).

Enrollment Fees

Knowledge First Financial, as the Plan's distributor, deducts enrollment fees from subscribers' deposits to the Plan equivalent to \$100 per unit purchased. All the subscribers' deposits to the Plan are applied against the enrollment fee until one half of the total enrollment fee has been paid. Thereafter, one half of subsequent deposits to the Plan are applied against the enrollment fee until the fee is paid in full. Enrollment fees for the year ended December 31, 2022 were \$53 thousand (December 31, 2021 - \$251 thousand).

Special Processing Fees

Special processing fees are one-time fees for specific transactions in the subscribers' savings account. Pursuant to the Fund Management Agreement dated May 1, 2013, 100% of special processing fees are paid to Knowledge First Financial as these fees are directly related to plan administration activities. For the year ended December 31, 2022, special processing fees deducted were \$533 thousand (December 31, 2021 - \$180 thousand).

Fees Paid by Subscribers

Insurance Premiums

The insurance premium for the embedded group life and total disability insurance is calculated at 1.7% of subscribers' deposits. No premium is deducted for one-time deposits or if the subscriber is under the age of 18 or over the age of 64. Pursuant to the Fund Management Agreement dated May 1, 2013, 100% of insurance administration-related fees are paid to Financial. Insurance administration fees are estimated to be 25% to 30% of the insurance premium. For the year ended December 31, 2022, insurance premiums of \$2.6 million (December 31, 2021 - \$2.0 million) were deducted from subscribers' deposits prior to depositing the balance into the Plan.

Past Performance

Past performance of the Plan is set out in the following chart and compound returns table. Investment returns have been calculated using market values and time-weighted cash flows during the year(s). Rates of return shown below for the Plan are:

- For the investment portfolio only;
- After management and independent review committee fees; and
- Assume that all of the income, interest earned, and capital gains distributions are reinvested in the Plan.

Past performance does not necessarily indicate how the Plan’s investment portfolio will perform in the future.

Year by Year Returns

The following bar chart illustrates the Plan’s annual performance in each of the past ten fiscal years to December 31, 2022. The chart illustrates in percentage terms how much an investment made in the investment portfolio on the first day of each financial year would have increased or decreased by the last day of that financial year.
